

TRISAVO

Better safe than sorry

Our partner TRISAVO offers travel risk management with protection that covers health, early warning, information and communication systems. Comprehensive preventative and intervening safety solutions are indispensable to feel at ease when working abroad.

Comprehensive protection – worldwide!

Risk and crisis management

We protect your company and your employees from possible dangers, attacks and threats and prepare for an actual emergency. So that everything is well prepared while you are on the road.

Travel safety

The frequency of natural disasters and safety risks due to global conflicts is increasing. It is our objective to support you with our early warning, information and communication systems in your duty of information and care.

Worldwide health services

We have re-defined “care” so that you and your employees are well prepared and cared for when abroad. Benefit from our extensive services.
